

## DESCRIPTION

Trim Tim 7 was designed to satisfy the needs of joiners utilising thin cabinet carcasses. The 7mm deep profile allows installation into extremely thin cabinetry. A rare feature of a profile so thin is its ability to provide “dot-free” lighting. When combined with one of “Spec Series Slim” LED strips, homogeneous lines of lights can be realised, giving the illusion that the profile is much deeper.

## FEATURES

- Made locally and factory assembled
- Unique mounting clip design for easy installation
- V-groove for accurate drilling and strip alignment
- Polycarbonate diffuser – UV resistant
- Dot-free and uniform lighting
- Max. 14 W per metre
